

Fat Filled Milk Powder

Information Sheet

(Please note that this is not a Specification sheet)

Fat Filled Milk Powder is manufactured by combining top quality skimmed milk powder with specifically prepared vegetable oils to produce a spray dried milk powder that is easily reconstituted into a milk drink. It has a pleasant clean flavour, and its powder format means that it has a long shelf life that can be reconstituted on demand.

Ingredients

- Skimmed milk
- Vegetable oil
- Optional Sugar
- Optional Vitamins / Minerals
- Optional Lecithin (if instantised required)

	Typical Specification (As Is)
Moisture	3.5% max
Fat	26.0-27.99% max
Protein	23.5% min

Varieties

- 26% or 28% fat level
- Instantised or Non-instantised
- Coffee stable
- Addition of vitamins and minerals as desired

Flavour

Full bodied, good mouth feel with subtle dairy notes. There are regional preferences for this creamy low dairy fat flavour.

Mainly used in

- Primarily used in the reconstitution for drinking, of milk substitute (typically can be used any where whole milk powder is used).
- Also used in
 - Bakery sector
