

Yogurt Powder

Information Sheet

(Please note that this is not a Specification sheet)

Skimmed Milk Yoghurt Powder is made from fresh milk that is cultured, pasteurized, evaporated and then spray dried.

Characteristics

Our powder has an excellent flavour profile. It retains a high protein content, and has strong amino acid profile.

Ingredients

The ingredients are fresh, high quality Irish skim milk and yoghurt culture specifically selected to create a high quality final product.

	Typical Specification (As Is)
Moisture	4.0% max
Fat	1.5% max
Protein	34% min, target 35.0%

Varieties

Our yogurt powder is available at varying pH levels to suit customer needs.

Mainly used in

Our yogurt powder has a wide range of uses, and is regularly used in confectionary, snacking, enrobing, dry blended formulas and yoghurt ice cream.

Packaging

Product can be supplied in 25 kg or 1000 kg bags

Shelf Life

The shelf-life is 9 months from date of production when the product is stored in a cool, dry place at maximum 70 % relative humidity. It should not be exposed to strong odours or sunlight.

Quality Assurance

All of our yogurt powder is produced to the highest European standards. Full specifications incorporating quality control measures are available on request.
