Top Tips

Sandwiches and Wraps

Ready cut, perfectly portion-controlled and unbelievably easy to use, Ornua's cheese slices are this sector's optimum ingredient.

Hot Eat Treats

Create epic paninis, toasties, burritos, quesadillas, or even not-so-plain cheese on toast, with Ornua's natural cheese slices.

Burgers

Upgrade your burger with Ornua's cheese slices. Go classic with mature Cheddar, add a spicy Mexican twist with chilli cheese or load a BBQ burger with smoked Cheddar.

Baking

Cheese slices are great for adding a delicious cheesy layer to pies, quiches and savoury pastries.

Pasta Dishes

Get creative! Add slices between the pasta sheets when making a cannelloni, pasta bake or lasagne to create an oozing layer of cheese.

Quality Assurance

Ornua is committed to supplying its customers with milk products which are manufactured to the highest food safety and quality standards. Ornua products meet all applicable EU legislation and our supplying and manufacturing sites are accredited to the highest standards. A certificate of analysis is available on request and typically includes the key compositional, physical and microbiological parameters outlined in the product specification.

About Us

Ornua Ingredients UK is one of the leading providers of cheese and dairy solutions to the UK foodservice and food manufacturing sectors. Our comprehensive range of dairy products is supported by product innovation and consumer insights, to deliver solutions in line with our customers' needs.

Insight and Expertise

We support our customers with product expertise, trends and insight to be a trusted supplier partner.

Sustainability

Our Way Matters, our sustainability framework, contains three pillars; Our Way of Farming, Our Way of Operating and Our Way of Supporting. Each pillar sets out positive initiatives that benefit our environment, our business and our community.

Ornua is a founding member of Origin Green, the sustainability programme of the Irish food and drink industry. Ireland's dairy farmers adhere to the Sustainable Dairy Assurance Scheme whereby an independent audit takes place covering areas such as animal health and welfare, hygiene, land management, biosecurity and greenhouse gas emissions.
